

LET'S

ROCK

# Download this app: GarageBand

Click "Create Song"

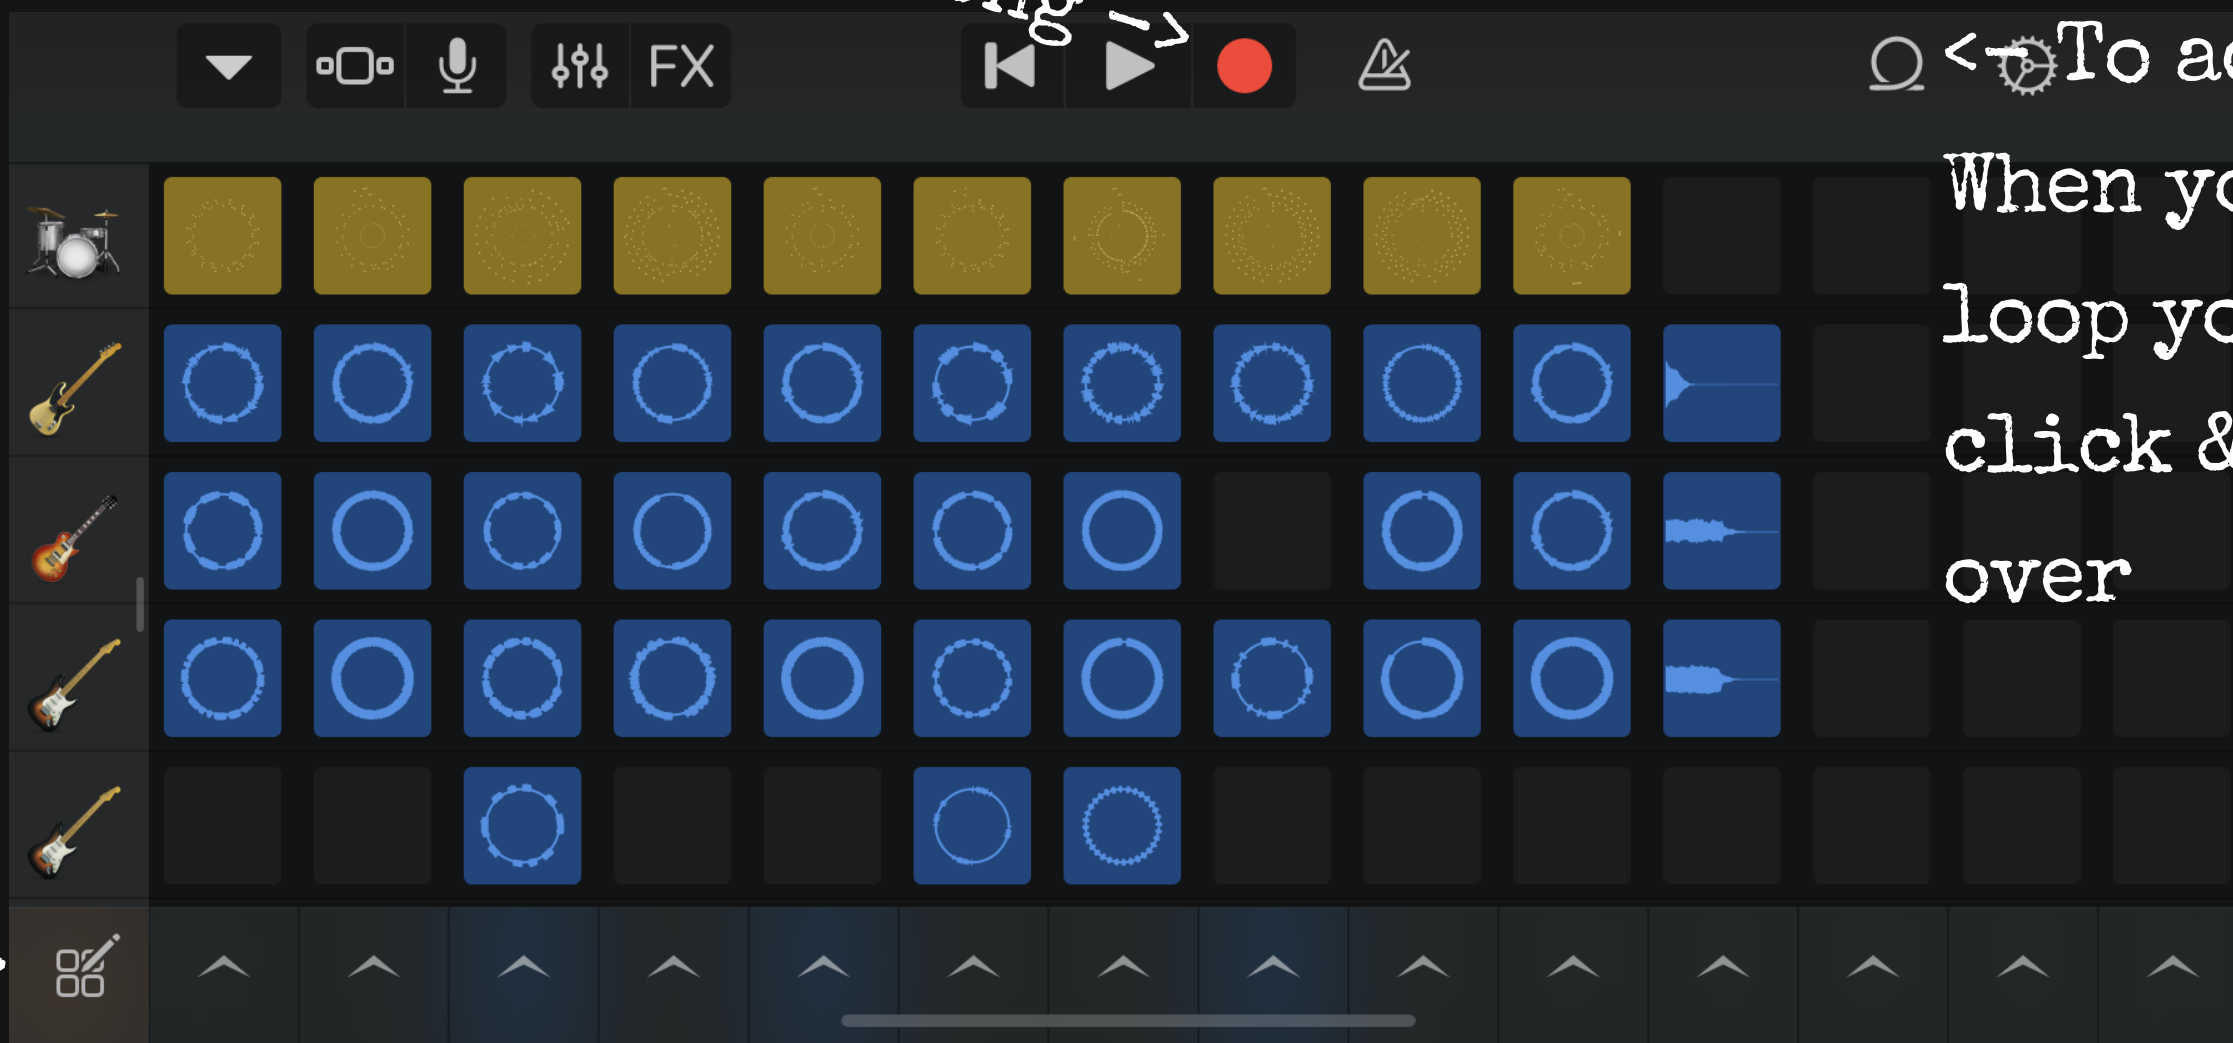

Click "Live Loops"

Click "Rock"

This is a sample set of loops you can make a song with (each blue and yellow square is a loop). You can play them by clicking on them individually, or click the arrow at the bottom of a column to play the whole column of loops together.

To record a song ->

To add new loops

When you find a loop you like, click & drag it over

Edit ->

To remove a loop: hold down on a square, press "delete"

To remove a whole column: hold down on the arrow at the bottom, "delete"

To remove a whole row: hold down on the instrument on the left, "delete"

For your inspiration ;)
